Exploded On-Wall Installation View

Model 90-TM Models Includes Taste Master® Purifier with Three Elements (1 Year Supply)

Typical Assembly Instructions (Always Install Per Local Code)

1. Cut rough opening per install requirements (rough opening example shown above) and install blocking or fixture carriers as required to support the drinking fountain mounting plate and purifier cabinet in a minimum 14" deep wall.
2. Cut a separate rough opening extending below the fountain mounting plate (23" high x 18 1/2" wide maximum rough in opening dimensions).
3. Run drain pipe to center of openings on mounting plate and install drain trap in wall per local code.
4. Run supply water line with service valve, if necessary.
5. Fasten mounting plate over rough opening with 5/16" countersunk lag bolts with bottom of plate 26" above the floor to meet ADA fountain height requirements of 34 1/4" to fountain bubbler.
6. Install purifier cabinet in rough opening below the mounting plate and slide the cover plate over the mounting plate. Using screws, fasten the cabinet to the mounting surface through the side flange of the cabinet.
7. Secure the fountain to the mounting plate using screws provided and fasten arm with set screws pushing slightly against the cover plate.
8. Connect drain line to slip coupling and connect supply water connections.
