Exploded On-Wall Installation View 107-16-HL-VP-TM

107-16-HL-VP-TM Includes Taste Master® Purifier with Three Elements (1 Year Supply)

Typical Assembly Instructions (Always Install Per Local Code)

1. Cut fountain rough openings per install requirements (rough opening example shown above) and install blocking or fixture carriers as required to support the drinking fountain mounting plate and purifier cabinet in a minimum 6" deep wall.
2. Run drain piping to center of openings on mounting plate (dimensioned above), and install drain trap(s) in wall per local code.
3. Run supply water line to mounted Taste Master® purifier housing.
4. Fasten mounting plate to mounting surface over rough opening with $\frac{5}{16}$ " countersunk lag bolts with bottom of plate 26" above the floor to meet ADA fountain height requirement of 34 1/4" to the bubbler spout.
5. Install cover plate, including the purifier cabinet, over the mounting plate. Using screws fasten the cabinet to the blocking or the mounting surface through the side flange of the cabinet.
6. Attach pipe assembly provided by Filtrine to outlet of filter behind mounting plate and expose (3) connections through the cover plate.
7. Slide each fountain and vandal proof bottle filler arm over the horizontal tongues protruding from the mounting plate and fasten arms with set screws pushing slightly against the cover plate.
8. Connect drain line to slip coupling at each fountain and connect to supply line
9. Install security panels under fountain arm and vandal proof bottle filler with tamper resistant screws.
